

# PEER BIAS LEADERS NEWSLETTER

## JANUARY 2020

---

### **A statement from the HMHS Peer Bias Leaders regarding the events of January 6, 2021:**

*On January 6th, the world watched domestic terrorists storm one of our nation's most sacred buildings. As Haddonfield students finished their school day, we witnessed one of the darkest moments in American history. We were stunned by this violent assault on our country's democratic institutions, many students and community members alike were struck by the respect afforded to the Capitol assailants by law enforcement. The lack of police presence for what appears to be a premeditated attack on the nation's Capitol, juxtaposed to the constant displays of force that were so often a response to peaceful Black Lives Matter protests this summer shows injustices demonstrated throughout history are still prevalent in our nation. Like many of our community members, this coup attempt made us feel hopeless and dejected, but these feelings will not lead to change.*

*Emboldened by these tragedies, the HMHS Peer Bias Leaders feel that now, more than ever, the commitment to pursue justice, equity, and opportunity for all is necessary for our country in hopes of a brighter future for all.*

This month's newsletter, while our nation continues to grapple with these recent events, we decided to focus on discussing, explaining, and examining symbols of hate targeted towards the Jewish community, some of which were displayed and utilized by rioters earlier this month. As a town, it is our responsibility to understand the danger of hate; Antisemitism has no place in our community.

***Quote of the Month:***

“No one is born hating another person because of the colour of his skin, or his background, or his religion. People must learn to hate, and if they can learn to hate, they can be taught to love, for love comes more naturally to the human heart than its opposite.”

- Nelson Mandela (1994)
